Hi, I'm Michael Phelps. I've been swimming just about my whole life and I know the benefits of swimming regularly. But sometimes access to a pool is limited and not every backyard or climate is right for a pool. SWIMMING

The revolutionary Michael Phelps Signature Swim Spas by Master Spas are one of a kind. Master Spas swim spas have been featured on national television shows including ABC's "The View" and on Discovery Channel's "How It's Made." Swimming is widely accepted as one of the most beneficial forms of exercise — ideal for building aerobic endurance and physical strength with low impact on joints and muscles. Yet access to pools can be challenging, and ordinary swim spas lack performance and require costly electrical upgrades. That's why a Michael Phelps Swim Spa by Master Spas model is your best and smartest choice. All Michael Phelps Swim Spas by Master Spas are energy efficient, easy to install and maintain, and offer the exemplary features you, your family and friends deserve. **WHAT ARE YOUR SWIM AND FITNESS GOALS?**

SWIMMING BY DESIGN. The Wave Propulsion™ Technology features a unique propeller design that provides a wider, deeper, and smoother current — giving you a swimming experience that is far superior to any other swim spa. The resistance is fully adjustable with the Swim Number System™ that allows swimmers of varying skills to customize the flow. And convenient digital controls allow you to set the water temperature where it's most comfortable for you. That's why consumers in an independent third party blind comparison with the leading competitors chose the Master Spas Swim Spa System as the top swim spa by a wide margin.

SWIMMING FOR LONGER, BETTER LIVING. A new study shows that swimming cuts men's risk of dying by about 50% compared to runners, walkers and

their sedentary peers. The University of South Carolina study led by Dr. Steven Blair evaluated comprehensive physical exams and behavioral surveys from more than 40,000 men, age 20-90 years, enrolled in the Aerobics Center Longitudinal Study (ACLS) over the last 32 years. "We also observed lower mortality in swimmers than in runners," Blair explains. "Therefore, swimming appears to be a healthful alternative to other types of physical activity. ...In an earlier study in this same population, we found that both women and men had similar benefits from swimming in terms of fitness and other health indicators." The results were presented at the 2008 World Aquatic Health™ Conference in Colorado Springs, Colorado, and have been published in the International Journal of Aquatic Research and Education.

Aquatic exercise is rapidly growing in popularity across the country. Unlike other swim and fitness spas, the Michael Phelps Signature Swim Spas by Master Spas has a large flat floor with no hidden obstacles. The water's buoyancy and controlled temperature make the swim spa ideal for a variety of fitness exercises. You can jog in place against a gentle current, use an optional kickboard, or the Aquatic Exercise System which includes a rowing kit and resistance bands and comes standard on all models. With the current off, you can experience the benefits of resistance training and range of motion exercises. A stainless steel grab bar at the end of the swim spa helps facilitate your workout.

See your local Michael Phelps Signature Swim Spas by Master Spas retailer for various fitness options including stainless steel aquatic treadmill and exercise bicycle.

An optional stereo package with state-of-the-art speakers adds to the sensory experience, and transducers below the water line allow you to actually hear the music through the water. A beautiful waterfall enhances the overall therapy with soothing sound and color with standard LED* lighting.
